

WBF
Wiggins Bay Foundation, Inc.

Dear Wiggins Bay Owners,

Please reinforce to your residents that it is critical that they notify us if they are planning on renovating, and the plans include altering any walls/floors, as our infrastructure can be damaged and cause delayed service outages not only to that resident, but potentially their neighbors beside and above/below them. In addition the costs to replace infrastructure can be costly, and will be passed on to the resident.

Please have any residents who are planning to renovate call our customer care center to set up a site survey BEFORE starting.

Thank you,

Jennifer Gibbons
